

Slide 1: Title & Project Overview

Excelerate Learning Hub

Final Flutter Mobile Application

Taiwo Jeje, Obed Yakpa, and Benjamin Obeng | Team 4

Mobile App Development with Flutter Virtual Internship

Project Purpose

The Excelerate Learning Hub was developed to help learners discover opportunities, access program information, and provide feedback through a simple and user-friendly mobile experience.

Slide 2: Executive Summary

Executive Summary

The Excelerate Learning Hub is a Flutter mobile application developed to help learners discover opportunities, access program information, and provide feedback through a user-friendly mobile experience.

Over the course of the internship, the application evolved from wireframes into a functional product featuring:

✅ Login Authentication

✅ Home Dashboard

✅ Program Listing & Details

✅ Dynamic JSON Data Integration

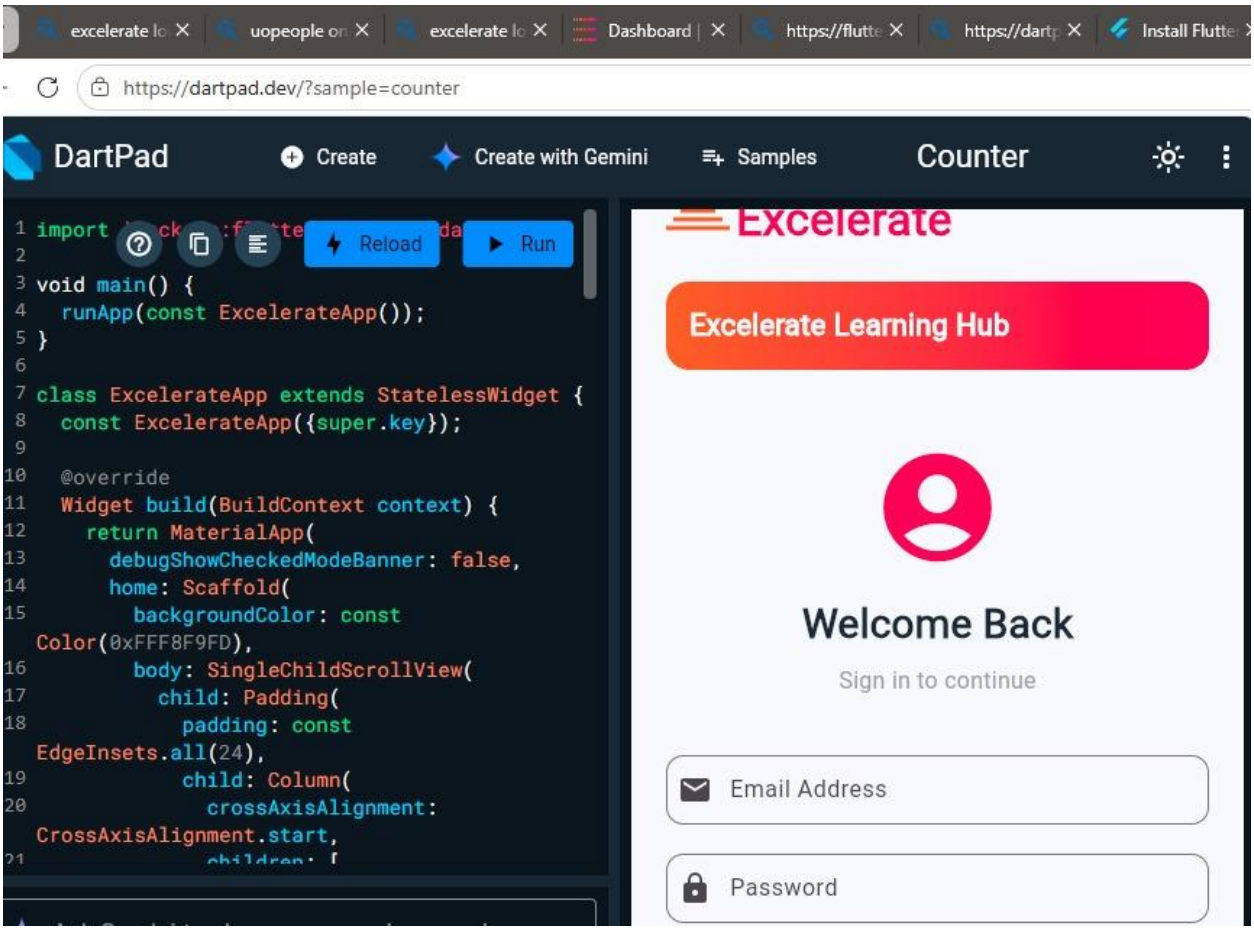

✅ Form Validation

✅ State Management

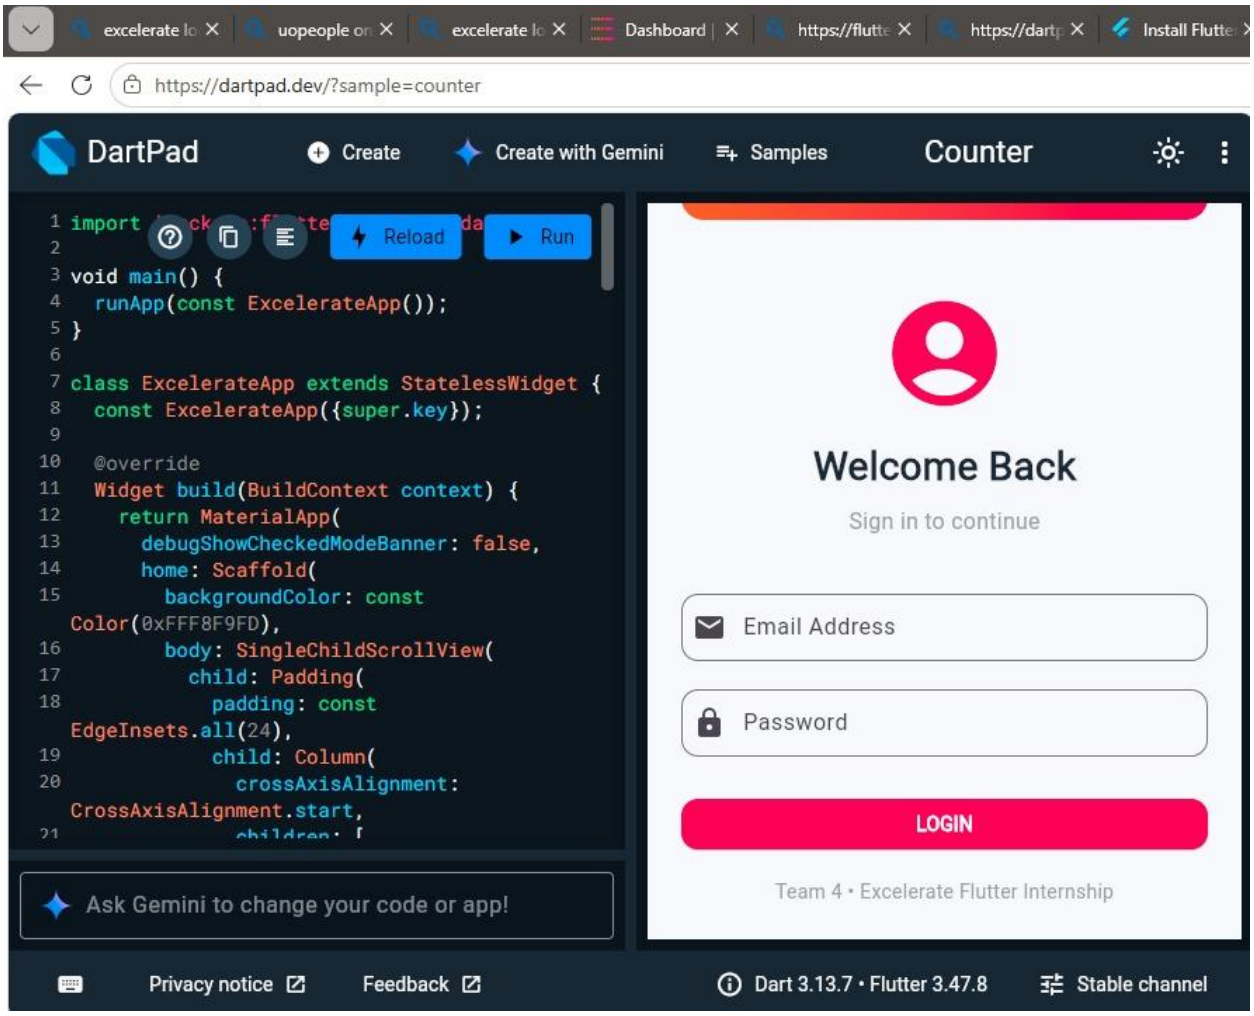

✅ Loading & Error Handling

The project demonstrates practical Flutter development skills and serves as a portfolio-ready mobile application.

Slide 3: Final Excelerate App

Core Screens

✅ Login Screen

✅ Home Dashboard

✅ Program Listing Screen

✅ Program Details Screen

✅ Feedback Form

Technical Features

✅ Dynamic Data using JSON

✅ Program Model & Program Service

✅ State Management (`setState()`)

✅ Validation & Submission Workflow

✅ Error Handling & Retry Functionality

User Journey & Application Flow

Slide 4: Dynamic Data & User Experience

Dynamic Functionality

- Program Model
- Program Service
- JSON Data Integration

User Experience Features

✅ Loading Screens

✅ Skeleton Loading

✅ Success Confirmation

✅ Error Handling & Retry

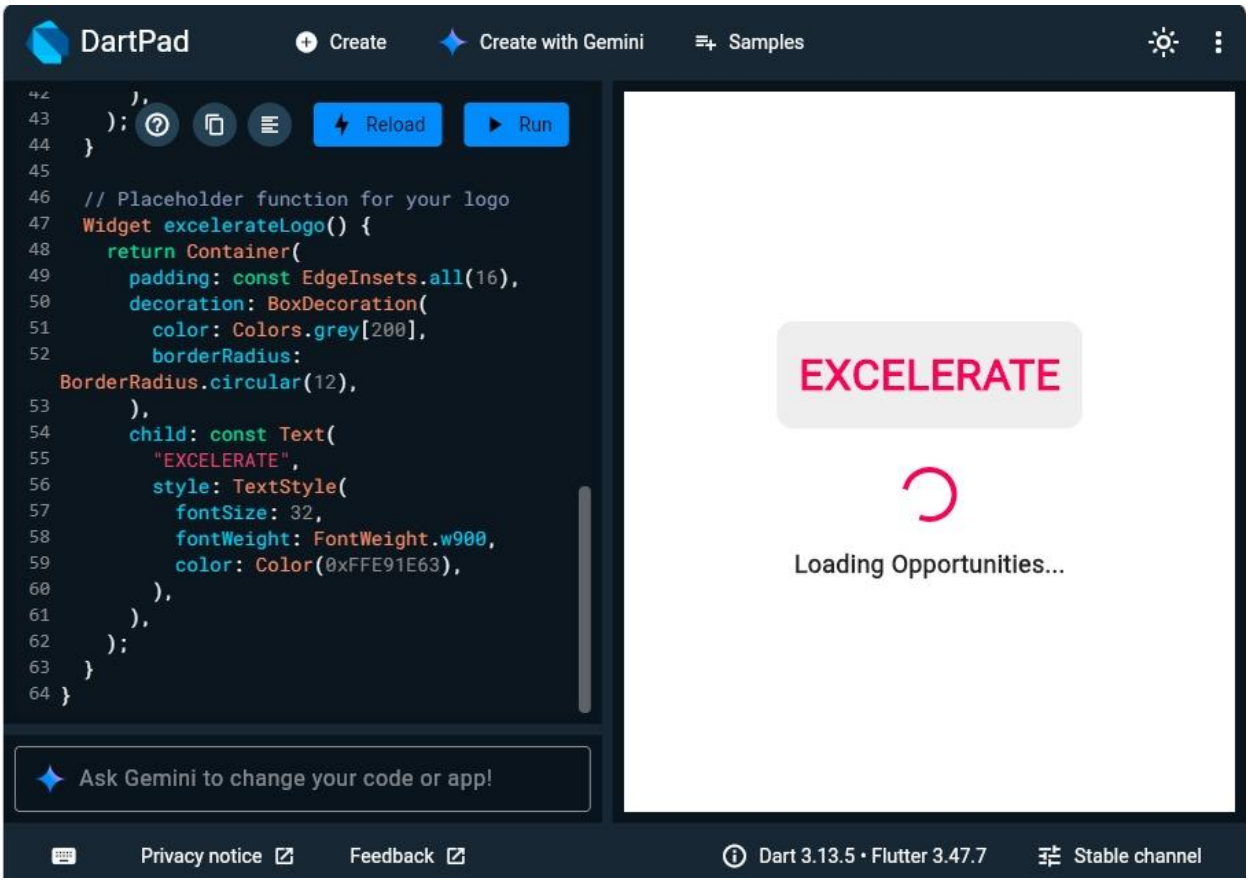

Result

Program information is loaded dynamically and presented through a responsive and interactive user experience.

Slide 5: GitHub Repository & Demo Video

GitHub Repository (Final Version)

Repository Name:

<Team 4> Excelerate Learning Hub

Repository Link:

https://github.com/Deji-Oladiran/Taiwo-Gbenga-Jeje.git

Repository Includes:

✅ Complete Flutter Application Source Code

✅ Login Screen, Home Dashboard, Program Listing & Program Details

✅ Feedback Form with Validation

✅ Program Model & Program Service

✅ Dynamic JSON Data Integration

✅ State Management using setState()

✅ Loading Indicators & Error Handling

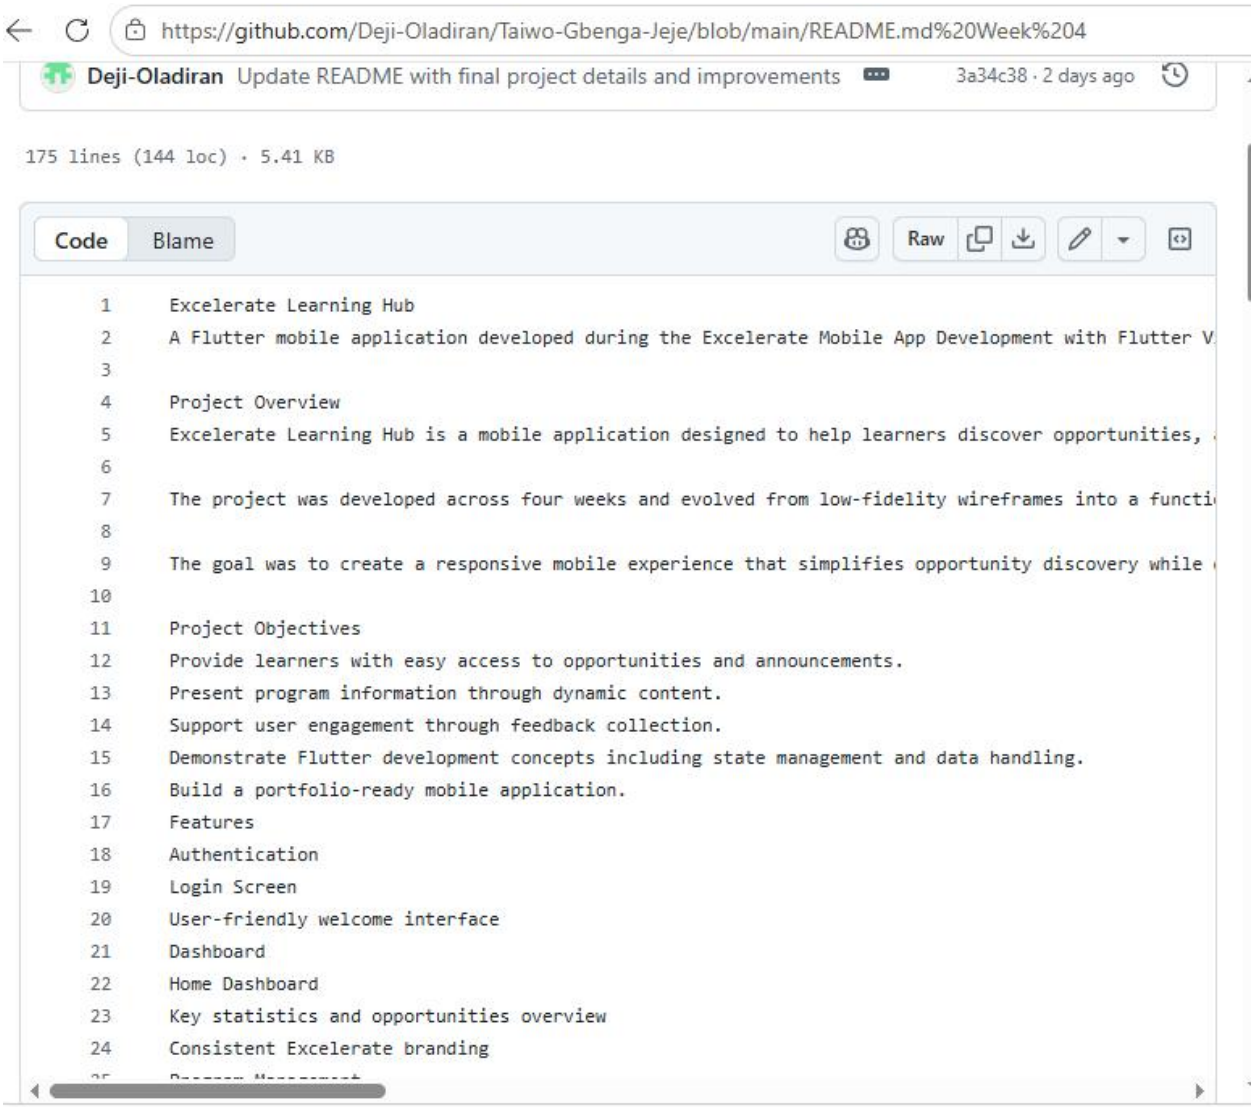

✅ Screenshots and Project Assets

Application Walkthrough

- ✅ Login Flow
- ✅ Home Dashboard
- ✅ Program Browsing
- ✅ Program Details
- ✅ Feedback Form Submission

Slide 6: Reflection & Conclusion

Reflection

Throughout this internship, I progressed from learning Flutter fundamentals to building a complete mobile application with navigation, dynamic data integration, state management, validation, and user interaction. Working through challenges involving debugging, application logic, and data handling strengthened my technical skills, confidence, and problem-solving abilities. This experience provided valuable hands-on development practice and a portfolio-ready project that reflects my growth as a Flutter developer.

Key Learnings

✅ Flutter Development

✅ State Management

✅ Dynamic Data Integration

✅ Form Validation

✅ Testing & Debugging

✅ GitHub Documentation

Future Improvements

- Real API Integration
- Authentication System
- Push Notifications

Thank You
